

```
1: #include<stdio.h>
2: int main()
3: {
4:     int n,rev=0,rem;
5:     printf("enter a number:");
6:     scanf("%d",&n);
7:     while(n!=0)
8:     {
9:         rem=n%10;
10:        rev=rev*10+rem;
11:        n=n/10;
12:    }
13:    printf("The reverse number is %d",rev);
14:    return 0;
15: }
```
